Education

Bachelor of Technology - Computer Engineering	(Expected) June 2026
<i>Pimpri Chinchwad College of Engineering - Pune University</i>	CGPA:9.18
Higher Secondary Certificate (HSC)	March 2022
<i>Shri Mhalsakant Junior College - Maharashtra State Board</i>	89.00%
Secondary School Certificate (SSC)	March 2020
<i>DIC's English Medium School - Maharashtra State Board</i>	93.4%

Experience

Danalitic Full Stack Developer Intern	Decmeber 2024 - February 2025
<ul style="list-style-type: none">Customized and integrated an open-source tool to align with company requirements, enhancing its functionality and user experience.Contributed to backend restructuring and frontend design enhancements to improve usability and performance.Deployed the application on a Google Cloud Platform (GCP) virtual machine, ensuring smooth deployment and scalability.	

Projects

Keypup

| Next.js, MongoDB, React, Node.js

- Developed a typing practice and multiplayer typing race platform using **Next.js**, Express,React and Socket.io.
- Implemented real-time multiplayer mode with room codes using **Web Sockets**, enabling users to compete in typing races.
- Designed a MongoDB database to efficiently store user progress, race results, and typing statistics hosted on cloud platform **MongoDB Atlas**.
- Provided customizable themes and responsive design to enhance user experience.

MotoMaps

| PostgreSQL, Express.js, React, Node.js

- Developed a road trip discovery app using Node.js, Express.js, and **React** for users to share road trips.
- Implemented a **PostgreSQL** database hosted on the cloud platform Neon.tech.
- Integrated authentication using **JWT**, **OTP** verification, and **Google Auth** for secure access.
- Utilized **Firebase** for secure authentication and efficient image storage solutions.
- Integrated **Maplibre API**, allowing users to view and share detailed trip routes seamlessly.

CampExplorer

| MongoDB, Express.js, EJS, Node.js

- Developed a **MERN** stack web application allowing users to create and review campground sites.
- Developed a **RESTful API** for efficient data handling and client-server communication.
- Ensured content integrity and user accountability by restricting editing and deletion of campgrounds to authorized users only.

Technical Skills

Languages: C/C++, Javascript, Typescript, SQL
Web Technologies/Databases : HTML, CSS, MongoDB, Oracle SQL, PostgreSQL
Frameworks/libraries : React, Next.Js, Node.js, Express.js, TailwindCSS, Redux, Zustand
Developer Tools : Git, Github

Achievements

Achieved **CodeChef** rating of **3 stars** (Max 1632)
Web Development Head for Google Developer Group On Campus(**GDGC**) PCCoE
Technical Team Executive for Association for Computing Machinery(**ACM**) PCCoE
2nd Runner Up in Coding Wars 2023 A State level Competitive Programming Competition

Certifications

The Web Developer Bootcamp by Colt Steele on Udemy	June 2024
